

Operating Policy

- Brodit AB shall be one of the leading companies within our industry.
- Strive for the most economic, qualitative and environmentally friendly solutions.
- This is done by:
 - Delivering products, on time, which meet the requirements and expectations of the customer.
 - More efficient production in environmental and qualitative terms.
 - Dedicated employees with a positive view on the business development.
 - A fruitful and close cooperation with suppliers and other stakeholders.
 - Continuous improvement of the operation and management system.
 - To show environmental and social responsibility.
 - Sustainable use of resources, actively protect our environment and comply with laws and other requirements so they constitute a minimum level as lowest.
